

Our Appreciation

Knows no bounds for past patronage. Today our Mr. Henley leaves for the east, conscious of the fact that Ada and the surrounding country expects us to furnish these goodly people with all that fashion decrees, and since we champion the wants of all the people, economy is the watch word for low prices. We care not whether your income is a dollar a day or ten dollars a day, we have provided for your wants and ask but a reasonable compensation for this honor. You may expect new goods daily at lowest possible prices.

GORGES REFORMED.

Destruction of Property in the Ohio River Stopped Temporarily by the Zero Weather.

Cincinnati, Feb. 14.—The sudden drop in temperature brought the river ice to a standstill, gorges forming at a number of points. The ice moved slowly all day Sunday, crushing everything before it and the new freeze only postpones what river men believe will be the worst final break-up of the river in many years. The damage already is estimated at from \$100,000 to \$200,000, the amount depending on the possibility of saving some of the barges and steamers which are now caught in the ice-pack or pushed on the shore. In addition to the loss already incurred vessels and other property valued at more than \$250,000 is in serious danger of total destruction.

Japanese Becoming Active.

St. Petersburg, Feb. 14.—A dispatch from General Kuropatkin made public to-day says: "Early in the morning of February 12 300 Japanese cavalry attacked a bridge near Fengtschong and damaged thirty yards of the railroad. Train service was resumed after some delay. The Japanese bombarded Poutloff hill and Sekheyuan with siege guns February 11. One officer was killed and several were wounded."

William Allen White Ill.

Topeka, Kan., Feb. 14.—A special to the State Journal from Manitou, Col., says that Editor W. A. White, of the Emporia Gazette, is seriously ill with erysipelas and with the best of care cannot be out for weeks.

SYMPATHIZE WITH KANSAS.

Ohio and Indiana Oil Producers Pass Resolutions Tending Support in the Fight with the Standard.

Toledo, O., Feb. 14.—At a meeting yesterday of the Western Oil Men's association, composed of crude oil producers in the Trenton rock oil fields of Ohio and Indiana, the situation in Kansas was discussed by the members present and the following resolutions were unanimously adopted: "That it is the sense of the producers and others interested here assembled that the state of Kansas is entitled to sympathy and moral support of the oil trade everywhere in its contest with the Standard Oil company; that in the recent action of the said company in promulgating the extraordinary order suspending operations in the Kansas field it has violated high-class business principles and been guilty of an act that is against good public policy; that we hereby heartily endorse the Kansas legislature in its efforts to secure relief to the trade and to see that justice be done; that in view of the fact that the law of equal rights has been ignored by the company we hope that the state will see that the independent producers have a square deal and are supported in a substantial manner in their efforts to obtain relief from an oppressive situation; that in maintaining their priority rights they should receive all necessary aid not only from the state but from oil producers in all other fields; that a copy of these resolutions be forwarded to the speaker of the house at Topeka, Kan."

Ex-Gov. Bailey Lost.

Topeka, Kan., Feb. 14.—Ex-Gov. W. J. Bailey will have to pay his grocery bills. The supreme court handed down a decision holding that the payment by the state of the governor's grocery bill was in fact an increase of his salary, prohibited by the constitution. The case was the outgrowth of a political row between the ex-governor and State Treasurer Kelly.

Strike Still On at Lodz.

Warsaw, Feb. 14.—Advices from Lodz say that a number of men resumed work but that after a couple of hours they again walked out. The town is quiet. It is semi-officially announced that as a result of the disturbances at Lodz 144 bodies have been buried while 200 wounded persons are still in the hospitals.

Steamers Not to Be Sold.

New York, Feb. 14.—Emil L. Boaz, the New York agent of the Hamburg-American line, received a message from Hamburg saying that the report that the steamers Deutschland and Hamburg were to be sold to Russia is without foundation. No negotiations for the sale of the steamers have been entered into.

THE SENATE STANDS PAT IS GREASON INNOCENT?

Will Not Give In to the President Regarding Amendments to Arbitration Treaties.

RATIFIED DOCUMENTS TO WHITE HOUSE

Secretary Hay Says Mr. Roosevelt Will Be Unable to Present Them in Their Altered Form to Countries with Which Negotiations Have Been Carried On—Vote Against President 50 to 9.

Washington, Feb. 14.—President Roosevelt will not present the arbitration treaties, as amended by the senate, to the countries with which they were negotiated. In reply to numerous inquiries by representatives of the press at the State department, Secretary Hay made in substance the following statement:

"The president regards the matter of the general arbitration treaties as concluded by the action of the senate on Saturday. He recognizes the right of the senate to reject a treaty either by a direct vote in that sense, or indirectly by changes which are incompatible with its spirit and purpose. He considers that with the senate amendment the treaties not only cease to be a step forward in the cause of general arbitration, but are really a step backward, and therefore he is unable to present them in this altered form to the countries with which we have been in negotiations."

The arbitration treaties which were amended and ratified by the senate on Saturday were sent to the president Monday. Each treaty was accompanied by the usual resolution setting forth the action taken by the senate.

The vote of 50 to 9 in favor of the adoption of an amendment to the treaties does not give the full strength of the senate on the question of insisting upon its prerogatives in treaty-making. There were five pairs recorded but in each case it was stated by the senator announcing his pair that he believed if his pair were present he would vote for the amendment. There seemed to be a lack of information as to whether general pairs covered the subject of amendment to treaties and on that account a number of senators refrained from voting. Senator Allee, who was recorded as voting for the amendment, was not present. His name was confused with that of Senator Alger, who was present and voted for the amendment. The pairs recorded were Depew and McEnery, Proctor and Mallory, Clark, of Arkansas, and Millard, Pettus and Crane, and Simmons and Clapp. No record was made, however, as to the manner these senators would have voted.

Senator Cullom, chairman of the committee on foreign relations, after reading Secretary Hay's comment on the action of the senate in amending the arbitration treaties, said:

"The senate's position is right absolutely. If anything is done hereafter the president will have to take the senate into his confidence. It might require a little more time but otherwise I can see nothing in the senate's course inharmonious with the president's interpretation of his treaty-making power."

Standard Buying Coffeyville Oil.

Chanute, Kan., Feb. 14.—It is announced from Coffeyville that the Prairie Oil and Gas company (Standard Oil company) is buying 400 barrels of oil a day and that it will continue to take that amount at that place. At Chanute the company still refuses to run the tanks. The same situation exists at Humboldt.

Convicted Pennsylvania Negro May Be Saved by Confession of Mrs. Edwards.

SAYS DAUGHTER WITNESSED MURDER.

Supplemental Confession by Condemned Woman Gives Details of Killing—She Gave Husband Liquor Until Intoxicated and Then Killed Him—Prison Born Babe Taken South.

Philadelphia, Feb. 14.—A petition asking for the re-opening of the case of Samuel Greason, colored, of Berks county, was filed in the supreme court Monday. Greason and Mrs. Kate Edwards were convicted of the murder of the latter's husband, but in a recent confession the woman exonerated Greason from all blame.

It is upon Mrs. Edwards' confession that counsel for Greason base their petition asking for a re-opening of the case. Should the supreme court grant the request of Greason's counsel neither Greason nor Mrs. Edwards will be hanged on Thursday of this week, the date set for the double hanging, as the woman would be reprieved in order that she might testify in Greason's behalf.

A supplemental confession by Mrs. Edwards was also presented to the court. In it she says she gave her husband liquor until he became intoxicated and then hit him on the head with a hammer. She says he was sitting on the front porch when she struck him. He resisted and made an effort to defend himself when she finished him with a succession of blows. Her daughter Mary, who witnessed it all, Mrs. Edwards says, then helped her to throw the body into the cistern. Mary is now in St. Louis and the police officials there have been asked to keep her under surveillance.

The supreme court refused to reopen the case of Samuel Greason, colored, of Reading. Unless the board of pardons, which meets in Harrisburg on Wednesday, intercedes, the woman and Greason will both be hanged on Thursday.

Baby Taken South.

Reading, Pa., Feb. 14.—Mrs. Edwards' prison-born child has been taken from its mother. The child, in charge of two women, was taken to Philadelphia on an early train. From there the baby was taken South over the Pennsylvania railroad in charge of a Sister of Charity.

Another Wreck on the Milwaukee Road.

Rock Island, Ill., Feb. 14.—A south-bound double-header passenger train on the Chicago, Milwaukee & St. Paul railway collided head-on with a switch engine at Moline, killing Engineer William Doolin, of Chicago, and fatally injured Engineer Charles Stapleton, of Rock Island. No passengers were hurt.

Russians Continue Bombardment.

Tokio, Feb. 14.—The Russians continued to bombard portions of Field Marshal Oyama's center and right on Saturday last. The Russians continue the construction of defensive works on their right, to the southwest of Mantapan, where they are erecting an emplacement for a battery of 24 guns.

Admits He Told a Lie.

Portland, Ore., Feb. 14.—Judge A. H. Tanner, law partner of United States Senator Mitchell, has confessed that he committed perjury in denying before the grand jury certain charges connecting himself and Mitchell with land frauds. Tanner says he will go into court and tell the whole truth.

WYNNEWOOD GETS NORMAL.

Peculiar Politics of a Peculiar Profession Manipulate the Location.

The committee selected by the Chickasaw Teachers Association, which held its session at Ada some time ago, met at Davis for the purpose of selecting a location for the holding of the summer normal. The members of the committee were Mr. Stanley, principal of the Ardmore schools, and Messrs. French, Woods, Osborne and Hendrix, superintendents of Wynnewood, Purcell, Pauls Valley and Ada schools, respectively.

Ardmore, Ada and Davis, through their committees who were present, each made a better proposition in support of the normal than did Wynnewood and since the committee had been informed that the town offering the best inducements should secure the normal, it occasioned some surprise, when after several ballots Wynnewood was selected.

Hon. R. W. Dick and Supt. Buck, in behalf of the city and the commercial club of Ardmore, offered the committee \$150 in cash, free use of the school buildings, the courtesies of the Carnegie library and free admittance to the Chautauqua lectures there this summer.

Ada, through her committee, offered \$180 in cash, free use of school buildings, free ice and water delivered to the school buildings and a uniform rate of board at \$3.50 and \$4 per week.

Wynnewood is a good little town and will no doubt meet the demands of the normal, and the committee of teachers who selected the location, only did wrong in informing the commercial organizations of different towns, that the town offering the best inducements should be selected, when instead a game of politics was played to the fineness of a dark horse feature.

BLACK EYE TO LEASES

Important Amendment Reported Favorably in Senate.

Washington, Feb. 14.—The senate sub-committee Monday afternoon reported favorably the amendment to the appropriation bill prohibiting leases of every character and authorizing the secretary of the interior to cancel all existing leases for fraud or inadequacy of consideration. The amendment also confers exclusive jurisdiction to the secretary to administer upon all Indian estates.

JUDGE R. S. DENNEE DEAD.

Venerable Carpet Bagger Dies of Starvation.

R. Stewart Dennee, formerly U. S. commissioner of the Ada court district, and ex-federal office holder of numerous appointive positions in the south, died on the 3rd inst. at New Orleans of starvation.

New Orleans was Judge Dennee's earliest southern home, he being reconstruction commander of the city immediately after the war, and it is said that ever after in New Orleans because of certain official acts and subsequent general demeanor, he was cordially hated by the citizens. When he died he was attended by strangers and supported by charity. His own children, living in the city, proved their inherited disposition of a carpet bagger parentage by refusing to see the poor old man until after he died.

Likely, from a professional carpet bagger standpoint, Judge R. Stewart Dennee's life was a glowing success. He having drawn a salary from the Government nearly the entire time since 1862, and worked as little and drunk as much as any man in the United States.

GET to work on that canning factory. The time is getting short if anything is to be done in the matter.

STATEHOOD BILL

Delegates Working to Send it to Conference Committee.

Washington, Feb. 13.—The republican leaders of the house today took the first step toward getting the statehood bill into conference. In accordance with the plan previously decided upon, Delegates Rodey and McGuire, of New Mexico and Oklahoma, respectively, began the circulation of a paper among the republican members for signatures. At the head of this paper, is the following statement:

"In the endeavor of the house to secure the final passage of H. R. 14749 and the admission of Oklahoma and Indian Territory as one state and the territories of New Mexico and Arizona as one state by conference between the two houses, for otherwise, the undersigned members of the house will support the parliamentary procedure necessary for that purpose by the committee on territories, the committee on rules or any conference committee."

It is deemed necessary to secure only the signatures of the thirty-three republican members who voted against the resolution adopted expressing practically the same idea. It is stated that this can readily be done. The next step will be the introduction of the necessary rule in the form of a resolution which will provide that the statehood bill shall be taken from the committee on territories and sent direct to the conference without action by the committee or opportunity for a motion to concur in the senate amendments.

A number of the thirty-three members who voted against such an order in the caucus a few days ago have signed the agreement, and the general impression prevails that in a few days, probably tomorrow, sufficient votes will be secured to send the bill to conference without bringing the senate amendments before the house. This of course is believed to be the only one which will bring about further action on the bill at this session. It is thought that in conference the house will insist upon the original measure.

THE COLDEST EVER KNOWN

West Again in the Grasp of an Abnormal Cold Wave Which Is Causing Much Suffering.

KANSAS AS COLD AS WISCONSIN.

Salina Reports 31 Below While Northern Points Only Go as Low as 28—At Des Moines, Ia., the Thermometer Registered 26 Below, Breaking All Records—Train Service Interrupted.

Kansas City, Mo., Feb. 14.—The maximum of the coldest spell Kansas City has experienced since 1899 was reached Monday morning when the mercury stood at 21 below zero. It has stood 7 to 15 below zero since seven o'clock Sunday morning. Reports from Kansas and Missouri show similar frigidities and great suffering among the poor.

At many points in Kansas the thermometer registered the coldest weather ever known. Lawrence reports 30 below in exposed places, while Ottawa reports 28 below with no available coal in town. At Wichita the weather observer says it is, with one exception the coldest ever known there. At Topeka 22 below was the record. Chanute reports 23½ below, the coldest ever known there. The government thermometer at Salina registered 31 below, three degrees colder than in February 1892. At Abilene the weather record was broken, the government instrument recording 29½ below. Live stock of all kinds is suffering severely and there will be considerable loss.

26 Below in Iowa.

Des Moines, Ia., Feb. 14.—The mercury broke all records here Monday, the thermometer registering 26 degrees below zero after a piercing cold, extending over the past 56 hours. Owing to the long duration of the extreme and steady cold much suffering is reported to county overseers of poor and charitable institutions. Unless the weather becomes more moderate in the next 12 hours there is bound to be considerable more suffering throughout the city and state.

Coldest of Winter in Chicago.

Chicago, Feb. 14.—Monday was the coldest of the winter in Chicago. At seven a. m. the government thermometer recorded 19 degrees below zero, a fall of 23 degrees in 12 hours. At 8 a. m. the mercury stood 18 below, and the observer predicted that it would not rise much higher during the day. The intense cold wave was accompanied by a high wind from the northwest. Snow ceased falling early last night and the sky was clear Monday. Street traffic was not interrupted, but incoming trains on the steam railroads were from one to nine hours late.

Coal Short in Nebraska.

Lincoln, Neb. Feb. 14.—The mercury registered 26 degrees below zero at eight o'clock Monday morning. This is the coldest weather Lincoln has known since 1897. On account of the bad train service, interrupted by the recent drifting snows, there is a scarcity of steam coal here and unless shipments are resumed regularly there may be some inconvenience on account of the shortage. In central Nebraska the thermometer showed as low as 32 degrees below at eight o'clock Monday.

Interfered with Business in St. Louis. St. Louis, Feb. 14.—Not in many years has the thermometer registered as low as it did Monday, when the coldest weather, with one exception, in the history of the local station, was ushered in with a temperature of 18 degrees below zero. At 8 a. m. there was only a rise of one degree, and a stiff west wind combined with the cold to cripple the street car transportation and interfere seriously with business.

Bad Train Service in Colorado.

Pueblo, Colo., Feb. 14.—The official temperature in this city was 26 below zero at 4 o'clock Monday morning, equalling the lowest record. Trains are badly delayed, the Missouri Pacific trains from the East due here last Saturday are snowbound and on the other roads trains are many hours late. Telegraph and telephone service is badly demoralized.

Prairies Strawn with Dead Stock.

Denver, Col., Feb. 14.—In southern Colorado and northern New Mexico the worst storm since 1886 is raging. In New Mexico the storm reached the proportions of a blizzard and great damage to stock is reported. Railroad men report the prairies along the line of the Colorado & Southern strawn with the carcasses of dead sheep and cattle.

Cold Wave Moving East.

Washington, Feb. 14.—The weather bureau issued the following special forecast: "The severest cold wave for the present season will overspread the eastern part of the United States Monday night with temperature below zero as far south as Virginia and freezing weather to south central portions of the Florida peninsula."

Coldest for Many Years.

Bloomington, Ill., Feb. 14.—Sunday night was the coldest in Central Illinois for many years. Official thermometers registered 26 below to-day.

Coldest in 12 Years at St. Joseph.

St. Joseph, Mo., Feb. 14.—The mercury registered 17 degrees below zero this morning, the coldest in 12 years.

Steamer Five Days Overdue.

St. John's N. F., Feb. 13.—No tidings have yet been received of the Red Cross line steamer Silvia which is now five days overdue at this port from Halifax, N. S., and grave fears are entertained for her safety.

John H. Kirby, known as the lumber king of Texas, has been indicted on a charge of bribery.

GRAND JURY INSTRUCTIONS.
Judge Dickerson Does Not Mince
Words in Speaking To Them

Gentlemen of the Grand Jury:
(You have been summoned here in the way of the grand jurors as summoned, and I will say in the star, as I have before said to grand juries, that it is an honor to be a grand juror in this country. The law carefully prescribes the character of men who shall be chosen to act in this capacity. The law carefully guards the manner in which you are chosen by causing the court to appoint three of the best men of the community, regardless of their opinions on any given subject; regardless of their politics or their religion; but three of the very best and wisest men are selected for the purpose of selecting you men as grand jurors, that we may have good, honest, law-abiding men to act in that capacity at all times.

Through the grand jury the community purges itself of the citizens that are not wanted. Through you, and through you alone, is the machinery started to work which will finally make a community pure and honest and upright, and better the chances of every honest man in the community, and assist in making the community good and assist the officers of the law in protecting our homes and protecting our community. And the questions propounded to you by the prosecuting attorney show the kind of men contemplated by the law. For example: "Have you ever been convicted of felony?" And other questions of like character.

This commission has selected you, gentlemen, for this duty. The law makes your duty very plain. The technical instructions as to the number of votes it takes to find a true bill and matters of that character are of very little importance, because you have counsel with you to advise you on those subjects.

The law requires me, gentlemen of grand jury, to designate some particular laws that seem to have been in the minds of the legislators: that there were some laws, the enforcement of which is more important to the community than others; or rather, it may have been that the people became indifferent as to the enforcement of some laws, and therefore they would make it the duty of the court to call attention to those particular laws. Some of them are of great importance. Some of them are of no more importance than other criminals. In fact, it is hard to tell what criminal law is more important than any other criminal law. One of these laws is the selling of mortgaged property. For example, it seems to have been thought, and it surely was rightfully thought, by the legislators that it was important that prosecutions should follow violations of the trust when a party mortgages his property and sells it. It is the basis of the strength of commercial paper; it is the basis of the credit of the community. And therefore I call your attention to that law as required.

The law especially makes mention of the sale of intoxicating liquors, the violations of that law and of the gambling laws. Gentlemen of the grand jury, let me say to you that I believe upon the bench for any length of time would not need to have the law state to him that he should call your attention to that particular law, because, as he looks in the faces of men who are arraigned before him week in and week out and month in and month out, and year in and year out, and hears from their lips of their misfortune and hears them give their excuses as to why they are arraigned before the bar of justice; their almost universal statement is that gambling and the use of intoxicating liquor was the cause of their downfall. This would make a Judge on the bench feel that it was his important duty, his

special trust to say to every grand jury and to every grand juror, here is the fountain head of crime. If we can but stamp out this fountain head from the community, we can save many a man and many a boy from appearing before the bar of justice. And in this country, where we have an absolute prohibitory law, gentlemen of the jury, it matters not whether you believe in it or not, or whether I believe in it or not, as sworn officers of the law, we can do but one thing; we ought to do but one thing; and we can think of but one thing, and that is the enforcement of the law as the evidence may show its violation.

I say to you that there is no greater obligation resting upon a citizen of this United States than rests upon you during the investigation. Not for a single moment can you take into consideration your own personal views in regard to the laws; nor can I for a single moment in executing them. But if the laws have been violated, let no guilty man escape, high or low; and let me impress upon you the word high. For I tell you that the whisky peddler who is arraigned here often before the bar of justice should have no more consideration at your hands than the wealthiest man in your community that sell dry goods and drugs or any other business he may be engaged in to cover up the nefarious business of selling intoxicating liquors, and driving your young men to the jails and penitentiaries for their crimes.

If the violations of these laws only affected the men of the community who patronized the whisky peddlers and the gambling joints, it might not be so important that we pay special attention to it. But gentlemen of the grand jury, if you could sit here and see the tears of the wives and daughters as they come before me day in and day out on account of the ruin of their homes caused by the violation of this particular law and of the gambling laws, you would say with me, "This is the fountain head of crime in this community; and this we will stamp out, if there is evidence to be had with the force of the government behind us.

Last week, in a beautiful little city within this jurisdiction, in the public streets in that city, a young woman rode up to a public place, as public as this street is, with her little babe, took it into a gambling house, found its father and laid it down and walked out. And after she had gone back to her home, it was discovered that day in and day out, while she was taking care of the horses and the cows and the little baby, this man was wasting in that gambling hell the very money that she had earned. You may say that he was weak, and he was. But this woman was distracted by the hours of waiting for that unfortunate husband, attracted by the demons who were luring him on spend the money of the home, this woman with her mother love, thought she would take one more step to save that husband, appealing to his father love, and left the child in his care, and in a few moments he staggered out and up the street, reeling with the little child in his arms. You say the man was a fool, no doubt, in your mind. But let me tell you, the weakness of a human being ought to appeal to us. And the man who tries to make a living by violation of the law in your community, by bartering in the weaknesses of human beings, by running gambling houses and whisky joints and houses of prostitution, should be brought to justice. We all have some weak places, and men who, by violation of law, undertake to take the money from the mothers and the children of this community; he is the man we should be after; he is the man who is taking the life blood of this community; he is the man who should be ostracized by every good citizen.

These weak men are the men that you, as grand jurors, and I, as Judge, have sworn to protect. I ask you, gentlemen of the grand jury, if you are against this prohibitory law, O, don't consider the evidence in the case. Let's make this community a pure community of good homes; let's drive out every dishonest man. He has no more right to make his living by dishonest dealing than you or I have. I don't care whether he is worth a hundred thousand dollars, selling dry-goods behind the counter, whether he is the gambler bedecked with diamonds, or whether he is a whisky peddler. Only by you, gentlemen, and by the petit jury which sits here, can we rid the community of violators of the law. The prosecuting attorney may work and to the officers of the law may do everything they can, but after all it comes down to the jury to say whether or not a man is guilty, or whether or not he will be tracked down in his crime.

Therefore, I say to you gentlemen, it is an honor to be selected a member of a body whose duty it is to clean up a community of crime. It is an honor.

These remarks should apply to all laws, as well as to those particular ones I called to your attention. If the evidence shows to your mind a man is guilty, let neither sympathy nor prejudice enter into your judgment, but find a true bill, and start the machinery of the law after perpetrators of crime.

STRANGE EXPERIENCE.
Pacific Mail Steamer Sails Through Miles of Debris Off the Central American Coast.
San Francisco, Feb. 14.—The Pacific Mail steamer City of Panama, which sailed from this port on January 21 for ports on the Central American coast, had a strange experience, news of which has just been received here by mail from Acapulco. Through miles of sea covered thickly with masses of vegetation, tree trunks and the carcasses of dead animals the steamer sailed, the debris at times being so thick that her progress was impeded. The officers of the vessel were unable to explain the strange condition and when they arrived at Acapulco no light was thrown on the subject. It is supposed that the floating mass of debris was cast up on the waters by some gigantic volcanic eruption on the Central American coast.

Smallpox Closes Salina's Schools.
Salina, Kan., Feb. 14.—The public schools closed Monday on account of smallpox, two teachers have been taken with the disease. Kansas Wesleyan business college will also close.

Given Away!

On Tuesday, April 4, 1905, Election Day, at 1 o'clock p. m., the Evening News will give to one of its subscribers a handsome five drawer drop head Sewing Machine, under the following conditions:

To every subscriber who pays to the Evening News ONE DOLLAR for a Three Month's advance subscription, we will give a ticket numbered in duplicate, one end of which will be deposited in a locked box in this office and the other will be retained by the subscriber. On Tuesday, April 4, at 1 o'clock p. m., the tickets will be thoroughly shaken up and the Fifth Ticket drawn from the box by an uninterested, blindfolded person, will take the machine.

Can anything be fairer? The machine is guaranteed for five years, is a drophead pattern, ball bearing throughout, has a complete set of attachments, including tuckers, hemmers, fellers, embroiderers and ruffler. It will sew fabrics from the finest muslins, cambrics and linens, to the heavy woolen ticking, bagging, coats, trousers and heavy clothing generally. The machine has an automatic arrangement whereby the head rises and lowers automatically as the sewing table or top of the machine is opened or closed. It is strongly built and is the acme of perfection for all classes of sewing. It can be seen in the News office and can be tested as to its smoothness of running, its noiseless motion and its capability of doing the work.

All we ask is that you pay \$1.00 for a THREE MONTHS' subscription to your home daily paper. You have the opportunity of getting your local paper with all the home and foreign news for three months and a guaranteed high class sewing machine that will last you a life time. We have bought the machine of a home dealer and offer you the latest device in a sewing machine.

The subscription of \$1.00 for three months will be taken where paper is sent out of town by mail or delivered by carrier. We have no restrictions, except that cash to the amount of \$1.00 will be necessary to get in on this proposition. We are absolutely going to give the machine away, and in doing so save you 20c on your three months' paper bill. Advance your own subscription and send one to a friend. It will keep them in touch with the Ada country and will be better than a letter each day.
